

Grange Tech - Business & Enterprise Day - 9 May 2018

Volunteers will work in pairs, to deliver workshops appropriate for year 8 students on the theme of business and enterprise. Year 8 students will get the opportunity to attend a range of workshops to increase their awareness of the working world.

Workshops should aim to have a learning element and also be interactive. Often, the best structure is to introduce your business and job role and include a small challenge or activity.
